

Join us for STEM Day at APG!

October 6th 2018

8th Annual

STEM in Scouting at Aberdeen Proving Ground!

Be a part of the event that started it all in 2011!

The eighth Annual STEM in Scouting event is the most inclusive STEM council event of its kind. All registrants can earn a Scouting STEM NOVA award. Boy Scouts and Cub Scouts can choose from an array of STEM merit badges facilitated by numerous Aberdeen Proving Ground community professionals.

Camp sites are reserved at Broad Creek Scout Reservation for those units needing overnight accommodation near the site. Navy Midshipmen Eagle Scouts recipients will support the day mentoring and instructing scouts. Adult training will offer innovative and required training for leaders and new volunteers.

Register now as space will be limited.

To Register, please visit:
